PROJECTS

Zanzibar Game

May 2023

- As a group tasked with the design of both logic and user interface of a dice game classic, Zanzibar, using Python, while developing communication and teamwork skills.

Reveille Reserve

January 2024

- As a group participating in TamuHack, using HTML, Python, and CSS, we designed a website in 24 hours to help people set saving goals on a month to month basis.

Wordle

April 2024

- Revamped and redesigned Wordle from start to finish using Java and JavaFX. Implemented a more efficient method for saving scores and updating player statistics in real-time during gameplay, while enhancing the overall user experience.

ACTIVITIES

Texas A&M Cybersecurity Club Tech Committee

College Station, TX

Committee Member

Feb 2023 – Present

- Replaced the clubs SQL database back end with elasticsearch indices by translating SQL queries into elasticsearch queries to expand the flexibility for information on club member profiles.
- Collaborated with a team to make club operations flow more smoothly. By allowing event scheduling to be more successful, while allowing club officer's the ability to track event attendance, and overall club points in a more effective manner.

Craig and Galen Brown Engineering Honors

College Station, TX

Member

Aug 2023 – Present

- Advised freshman in general engineering on courses to take during upcoming semesters.
- Allowed opportunities to take advantage of honors courses, allowing for better understanding of subjects and the ability to make long lasting connections with professionals in the field.

Fall Capture the Flag

College Station, TX

Competitor

Oct 2023

- Cooperated as a key member of a collaborative team taking on the challenge of learning new tools used in cyber security.
- Encouraging us to showcase problem-solving skills and teamwork in a competitive environment.

WORK EXPERIENCE

Texas A&M University - Department of Computer Science and Engineering

College Station,, TX

Undergraduate Teaching Assistant - CSCE 120 Program Design Concepts

Feb 2024 – Present

- Guided students in weekly labs, helped in their error management, and enhanced their knowledge of C++ concepts.
- Collaborated closely with instructors to maintain an effective flowing course of which 700+ students are taking.
